

# OPTIONS FOR THE HANDWRITING CLINIC DURING COVID-19

## Special Education Course

Available nationally to any family very soon!

Families can purchase for their child but the downloads must NOT be shared outside the family. These classes will be through Zenler.com. I will put up a special education course with adapted handwriting and fine motor printable labs. This will be a longer course with more materials, so the cost will be \$150.

## The Fine Motor Store

[www.TeachersPayTeachers.com](http://www.TeachersPayTeachers.com)

**Search site for The Fine Motor Store**  
All of our handwriting programs plus 275+ fine motor and handwriting support products are already available – as an individual license (or building license for facilities), or as product downloads. All include instructions and way more than a workbook. PERFECT for at home programming! Very reasonably priced – this IS the least expensive option.

Ex.  
First Strokes Special Education Handwriting Program

First Strokes Multi-sensory Handwriting Program

First Strokes Advanced Print Program

First Strokes Print Legibility Programs

First Strokes Cursive Program

First Strokes Keyboarding.

## Self Study Course

Available nationally to any family very soon!  
I think these are VERY strong courses and affordable for families!

Currently putting all our classes and camps online. (WHAM, Kids Beginning Print, SM Print, Keyboarding, Preschool/Special Ed). Families can purchase for their child but the downloads must NOT be shared outside the family. These classes will be through Zenler.com. **The WHAM class is already available.** Cost per course will be \$100 and it included videos, workbooks, downloads, and guided instruction and directions. It will not have therapist support/private mentoring – but it IS our courses! Most importantly, the course walks you through instruction through modules and videos. This is a VERY economical way of programming!

Available soon once we get the platform

## Private Therapy

Currently on hold but will restart as soon as Covid -19 cases significantly decrease we will reopen

**Private Therapy** – individualized (requires a plan of care and assessment)

**Private 1:1 Course**  
Monday – Th x 2 weeks – summer. These courses will be at the private therapy rate. **Does NOT require an assessment.** It is a course (WHAM, KBP, SM Print, Keyboarding only)

**1:1 ONLINE COURSE WITH THE THERAPIST**  
These courses will be at the private therapy rate BUT we are limiting courses to 30 minutes plus a home program. Parent must sit in, **Does NOT require an assessment.** It is a course (WHAM, KBP, SM Print, Keyboarding only). Cost is \$50 per session. We will email downloads 24 hours prior to the session for parent to print. We will have this availability through Zoom, in approximately 2 weeks and will schedule.

We will email downloads 24 hours prior to the session for parent to print. We will have this availability through Zoom, in approximately 2 weeks and will schedule.

## Summer Camps

**On HOLD:** We will open up registration to the summer programs MAY 1. The summer program will be a limited number of small group camps at the clinic or online depending on Covid-19 impact. We will post information as we get closer to May 1. In the case we do not have camps, we will offer some online camps for older students, and 1:1 or 1:2 camps online for younger students. Online camp times may be adjusted with age and will require parent support, especially for the younger students. Hopefully we can have camps at the clinic – all just depends so much on what the outlook looks like.
